

## RULES COMMITTEE PREVENTS FIGHT

TAKES AWAY THE WEAPONS OF THE INSURGENTS.

### WILL PREVENT CHANGES

Smothering of Bills in Committee Prevented—New Cabinet Office Proposed.

Washington, D. C., June 17.—By the decision of the house rules committee today to report a reform rule designed to prevent legislation being "smothered" in committee, the weapons of the insurgents have been taken away from them.

This proposed measure will without doubt prevent any fight being made at this session on Cannon and the rules committee unless the leaders of the insurgents find some other working complaint with which to stir up matters in the lower house.

The rule is practically prepared by the democratic conference and is known as the Clarke-Shurley resolution, and will be presented to the house late in this afternoon's session with the probability it will be passed immediately.

The house committee on labor also brought in an important report today which is on the bill creating a department of labor with a seat in the President's cabinet. This was reported on favorably and will go to the house for a vote.

The meeting of the senate committee on privileges and elections has been called for tomorrow to consider the bribery charges in connection with the election of Senator Lorimer of Illinois. It is expected a resolution will be reported providing for an investigation.

Following are the probable new committee chairmen: Martin A. Knapp, New York; Wade H. Ellis, Ohio; James S. Harlan, Illinois; William Peters, Nebraska; C. A. Severance, Minnesota; and Frank H. Kellogg, Minnesota.

## RECEIVED THOUSAND DOLLARS FOR VOTES

Two Witnesses in Browne Case Say That They Had Paid Sum After They Had Elected Lorimer.

Chicago, Ill., June 17.—The testimony of Rep. Beckmeyer was concluded in the Browne case today. He said he received \$1,000 from Browne after voting for Lorimer. Link followed, and said that while he was not proud of anything he received \$1,000 after he had voted for Lorimer. Impugning the confession to the grand jury that he was bribed to vote for Lorimer, for senator, Rep. Link today charged that his "confession" was secured by intimidation and declared he afterward told State Attorney Wayman it was untrue. "I was willing to vote for anyone in order to defeat, Hopkins," testified Rep. Beckmeyer after saying he did not consider the \$1,000 paid him as a bribe.

## GOLDFIELDS WILL BE SCENE OF THE BIG RING FIGHT

Tex Rickard Announces Change in Location of the Jeffries-Johnson Gs For July 4th This Morning.

San Francisco, June 17.—Tex Rickard announced this morning that the Jeffries-Johnson battle for the world's championship in the heavyweight class would take place on the scheduled date, July 4th, at Goldfield, Nevada.

It was known last night that Goldfield was making a strong bid for the big fight and as the arena is already up and needs but slight addition to be large enough to accommodate the great crowds that are expected. Rickard had also been considered but the lack of accommodation for the visitors owing to the crowded condition of the hotels against it being chosen. Besides not half big enough crowd could be seated there as will be needed to make it a financial success.

It was the dispatch from Morris Sullivan of Goldfield, that turned the tide in favor of that city. He wired Rickard that he would guarantee the promoters \$120,000 to bring the fight to his city.

Salt Lake was out of it as soon as it was announced that the Governor of Utah would not permit the contest to be held in his state. It is understood that steps will be taken at once to complete plans for the fight at Goldfield.

Both Johnson and Jeffries have stated that they will fight at any place the promoters desire and it is probable that they will remain at their training camps to Nevada within the next day or two.

## NEW YORK AGLOW WITH STREAMERS

ON EVE OF ARRIVAL OF A DIS- TINGUISHED CITIZEN

Have Gathered in Metropolis to Welcome To Col. Roosevelt Tomorrow Morning

New York, June 17.—In eager expectancy New York is awaiting the arrival of former President Theodore Roosevelt on the Kaiserin Augusta Victoria tomorrow morning. Fluttering flags, pennants and streamers and pictures of Col. Roosevelt are everywhere. Broadway is a long vista of hunting in the national colors, while the fronts of the great skyscrapers facing Battery Park, where the ornate welcome of the distinguished home-comer is to take place, have been handsomely decorated. Visitors are coming in from the north, south and west to assist in the demonstration and it is estimated there will be more than half a million strangers in New York by tomorrow morning.

Railroad and steamboat officials believe the estimate of half a million visitors is altogether too small. Many expressed the opinion today that the number will approach close to a million and may possibly exceed that figure. The trains, boats and trolleys early tomorrow morning are expected to pour a veritable flood of humanity into the metropolis from the surrounding cities and towns of Long Island, Connecticut and New Jersey.

Accordations at the leading hotels are already at a premium. The Waldorf, St. Regis, Knickerbocker, Astor, Belmont and scores of other prominent hotels are filled from ground to roof and nearby rooming houses are taking care of the overflow. Delegates from single cities or States have taken entire floors at some of the big hotels. The Waldorf for example, is housing nearly a thousand visitors from Chicago, while an equally large delegation from Ohio has found accommodations at one of the big hotels a little further up Fifth avenue.

Every detail of the elaborate reception program was completed today. The program will be ushered in shortly after 8 o'clock tomorrow morning when the flotilla of boats will rendezvous in the Narrows, where it will remain until the Kaiserin Augusta Victoria drops her anchor at Quarantine and Mr. Roosevelt boards the revenue cutter Androskogah, which has been assigned to the reception committee. The boats of the flotilla will fall in behind in double column, and will proceed up the bay and North River as far as Fifty-ninth street, and back to the Battery.

At the Battery Mr. Roosevelt will set foot on his native soil for the first time in over a year and be officially welcomed by Mayor Gaynor, representing the City of New York. This ceremony is set for eleven o'clock. It will take place on a raised stand in Battery Park and the principals will be surrounded by thousands of distinguished visitors, residents of Washington, members of President Taft's cabinet, governors of States, mayors of cities, business men of national repute and many other persons of note.

According to the present plan, Mr. Roosevelt will, when the revenue cutter passes through the Dock Department building and steps from the raised sidewalk to the platform. The platform itself will be raised five feet, so that those standing upon it will be seen by others thousands in the park and along the rapid promenades. At the foot of the platform steps the former President will be met by Mr. Gaynor, who will deliver an address of welcome, to which Mr. Roosevelt will respond.

During the ceremony the carriages to be used in the procession by the members of the reception committee will be drawn up in line along the West street, but they will not enter Battery Place until signaled for.

The parade, which will follow immediately after the welcoming exercises, will be led by mounted police band. Then will come the members of the reception committee and local organizations.

Mr. Roosevelt's personal escort will consist of the members of his regiment of Rough Riders, under the command of Col. E. Hunter, president of the National Roosevelt Rough Riders Association. The three honorary members of the association will ride in the parade. They are Lieut. Gen. S. B. M. Young, U. S. A., retired; Brig. Gen. Samuel R. Sumner, U. S. A., retired; and Brig. Gen. Charles Cooper of Philadelphia. The Rough Riders will be mounted on horses furnished by troop C. of Brooklyn and will appear in the regulation United States army khaki uniform.

The parade will pass up Broadway to Waverly Place, turning into Washington Square, thence through Washington Arch, on Fifth avenue to fifty-ninth street, where it will be disbanded. It is probable that immediately following the conclusion of the demonstration Mr. Roosevelt and his family will leave for their home at Oyster Bay.

## COMMENCEMENT AT J. H. S. ENDED

GRADUATION PROGRAM LAST  
EVENING CLOSE OF EXERCISES

DIPLOMAS WERE PRESENTED

To Forty-Five Members of the Class  
by President B. B. Buckmaster  
—Alumni Banquet Tonight.

With the Commencement program and the presentation of diplomas to the graduates the Commencement exercises at the high school were brought to a close last evening. The evening of the class of 1910 will be remembered at a gathering of the alumni around the banquet board.

Opening the program of the evening was a selection by the high school orchestra, under the direction of Miss Nellie Miller, and Rev. T. D. Williams spoke a prayer. An illustrated gymnastic exercise on the horizontal bar was performed by Sterling Campbell. The uplight and gay wires holding the bar in position were wound with hunting in the class colors, purple and white.

A subject of interest was the essay by Miss Ethel Shaw on "Hallow's Comet," her talk being illustrated with stereoscopic views. She told of the early superstitions concerning the sky wanderer; of the discovery of the fact that it appeared regularly in the heavens, by Edmund Halley; and of its recent appearance. Views of early pictures and postcards picturing the comet and of later drawings and photographs of it were shown.

The American soldier, particularly the heroes of 1812-15, were eulogized by Miss Jessie Jones in her essay on "The Man Behind the Gun."

A plea for the expenditure of vast sums for the building of humanity rather than the construction of Dreadnoughts and other modern fighting equipment, was made by Miss Anna May Hughes in her essay on "International Peace."

"Pantasia Appassionata," by Vieuxtemps, was given a splendid violin interpretation by Miss Wilton Holmes. Mrs. Georgia Hyde furnished the piano accompaniment.

The various phases of the negro problem in the United States and a possible method of solving the difficulties which confront the people, were dealt with, Miss Jennie Keeney's essay, "The Negro Problem."

A biographical sketch of that unfortunate ruler of Scotland, Mary Queen of Scots, was the contribution of Miss Nellie Skinner to the program.

Miss Martha Lake gave a recitation of "The Koenig," by Goethe, the great German poet, which pictures a dying child as seeing the King of the Elves. The English translation of the poem was first given and then it was recited by Miss Lake in the German.

Will Lytle's poem, "The Crisis of a Nation," was prize-winning, regard to delivery and the manner of handling his subject. The crisis which the nation is now facing according to his oration, was the exhaustion of the natural resources of the country, the increasing accumulation of wealth by a few, and the decline of citizens in the use of their powers as citizens to bring about good government.

"The Man in the Shadow" was the subject of an enjoyable reading given by Miss Ruth Wetmore.

In behalf of the class of 1910, Miss Ella Shoemaker presented to the school, the class token, a picture of the late Samuel Clemens (Mark Twain), speaking briefly of the custom of each graduating class of giving some memento and outlining briefly the life of the great American humorist.

The high school orchestra played and the graduates assembled on the stage, where Miss Arlie Sutherland delivered the valedictory address.

Dr. B. B. Buckmaster, on the part of the Board of Education, presented the graduates with their diplomas, in a short presentation speech cautioning them against heeding the allurements of worldliness, and to develop their character.

The closing number was the singing of the class song by the class. Miss Clara Hodge, who composed the words and selected the airs for the melody, led the class in the singing. Diplomas were presented last night to:

Willie Carlotta Holmes, Grace M. Redding, Marjorie Bennett, Clara Hodge, Henry P. Blank, Edith Horstman, Howard Sterling, D. Campbell, Edgar C. Brown, Nellie G. Cronin, H. Mildred Doty, Genevieve B. Dower, Elsie L. Drake, Lena M. Engler, Grace C. Whitford, Estee, Francis L. Glenown, Jay W. Glenown, May L. Granger, Francis Davison Greeno, Clara Marie Grubb, Mabel A. Hamilton, Anna May Hughes, Will Carrington Hyde, Ethel Jenkins, Joseph E. Jones, Mayme E. Jones, Joseph H. Keeney, Martha Minerva Lake, Glen McCarthy, Joseph McGowan, James Emmett Murphy, Molland E. Palmer, Emmett J. Roberts, Gladys M. Rutter, Howard A. Saller, Clara T. Schwartz, Ethel M. Shaw, Ruth H. Sherman, Ella Marie Shoemaker, Carrie L. Sholes, Nellie L. Sidner, Arlie Sutherland, Ruth Wetmore, Dorothy L. Wilcox, Hazel J. Wilkerson, Russell W. Wilkerson, Stewart S. Williams.

**BROADHEAD.** Broadhead, June 17.—Word has been received from Harold Johnson, who has been attending the U. W. the past year, that he will be located somewhere in the state of Washington this summer with an engineering party.

## INTER-MARRIAGE.

The theory that the marriage of cousins produces a race of imbeciles and defectives is exploded by the history of a little republic founded in 782 and located between France and Spain. The Republic of the Valleys of Andorra is the title used by this little nation and a writer in the Wide World magazine for July has this to say about the people:

"The Andorrans are very proud of their blue blood and ancient lineage; in their eyes a gavage (foreigner) of any description or nationality is merely an inferior being, a sort of mushroom upstart in comparison with themselves. During twelve hundred years they have continually married and intermarried to such an extent that at present all the inhabitants are practically cousins; yet, strange to say, neither their physical, mental, nor moral qualities seem to have suffered. Both sexes are strong-limbed, broad-shouldered, bright-eyed, hardy, and long-lived, retaining their hair and their teeth to a green old age; they are also keen-witted and intelligent, alert and happy-hearted, sober, industrious, hospitable, and devout. The feminine Andorran has not a vestige of coquetry about her; she is just the female pure and simple. She is a thrifty housewife, a helpmate to her husband in the most literal sense of the term; ready and able to trudge off across mountain and valley beside him with a pack of smuggled goods on her back in case of need."

## MAY IMPORTS AND EXPORTS, 1910.

Foreign trade during the month of May shows smaller imports than in any month since August of last year and larger exports than in May of any year with the single exception of 1907. The total imports for the month, as shown by the bureau of statistics of the department of commerce and labor, were \$119,929,608, against \$133,923,300 in April and \$162,999,435 in March of the present year. The exports of the month were \$131,145,428, against \$123,923,778 in May, 1909, \$113,010,378 in May, 1908, and \$131,750,608 in May, 1907, the single year which shows a higher record of May exports than the one just announced. The excess of exports over imports for the month of May, 1910, is \$11,215,498, against \$7,262,243 in May of last year. The total imports for the eleven months ending with May, 1910, were \$1,429,160,602 and the total exports, \$1,517,159,178, making the excess of exports over imports for the

eleven months' period \$178,998,576. The exports for the eleven months ending with May, 1910, exceed those of the corresponding months of last year by \$71,567,063.

Majorities rule, and when the 1,500 odd voters in Janesville said they wanted the saloon, they represented a majority of more than 600 at the polls. This is public sentiment in our home city, however distasteful it may be, and license or no license, the wide open town will continue until sentiment changes. Stubborn facts are not always pleasant, but they are always worth recognizing.

Captain William Mitchell Lewis, one of the candidates for governor, is out with a circular letter in which he declares loyalty to La Follette and Roosevelt. The effort to ride two horses is sometimes successful in the sawdust ring, but the scheme is yet to be tested in the open country, and Captain Lewis will be obliged to abandon one of his steeds.

When bi-planes become as common as automobiles, rubber stock will be at a discount. Repairs will also be easy as there is plenty of room under the machine to negotiate a monkey wrench. "The world do move," and when the air is full of flying machines there will be every inducement to "look up."

From stoking the boilers, to preaching to the immigrants, Roosevelt is having a strenuous homeward voyage. Before the days of wireless, he might have had a peaceful time, but the world is now informed of every move in mid-ocean, and he continues to be the best advertised man in the world, with no investment for the notoriety.

People who have been worrying about the corn crop, have another worry coming. It is an old saying that July and August make the corn, and from present indications June promises to lend a hand this year. "All things come to him who waits."

If the order just issued by the California governor, to stop the Jeffries-Johnson fight, is carried out, it will be the first successful attempt to make the city of San Francisco good by law. A prize fight is a mild form of lawlessness in the coast city.

The democratic party of the state is finding it difficult to rally forces and get the rank and file in line. So many of the brothers belong to the "fair-minded" class that they are loath to forsake their favorite leader.

Ex-Governor Odell of New York did not propose to mix up with the festivities in New York tomorrow, but his presence will hardly be missed, and he might better have gone fishing and said nothing about it.

Our "Teddy" shovels coal yesterday, and the good ship which is bearing him home is reported ahead of time this morning. Things do move "when Teddy goes to bat."

The state of Oklahoma has no capital more than the law allows but is short of funds, and state employees are waiting patiently for something to turn up.

Congress is slated to adjourn June 25. God speed the day. The weather is hot and the people are entitled to a rest.

If the hot weather continues, congress is liable to adjourn sine die. Even that would hardly be considered a calamity.

## Uncle Walt

THE POET PHILOSOPHER

By WALT MASON.  
(Copyright, 1909, by George Matthews Adams.)

Nine monarchs followed in the gloom when Edward journeyed to the tomb; nine monarchs walked, as in a dream—enough to make THE NINE a baseball team—and Kings. East upon King Ed-ward's bier the futility tribute of a tear. And at his task the sixteen kings (the man who digs the graves of kings): "Nine monarchs, in their brave array, are bending over Edward's clay; and does the silent sovereign care, or does he know that they are there? And can the tower of monarchs who make these dim eyes of Edward's shine? And if they give their nine commands, can they bring life to those dead white lips? Can their nine crowns and scepters nine, bring to the dead the life divine? Nine paupers at a pauper's grave, who claw their rags and weep and rave, can do as much to help the dead, as those nine kings at Edward's bed."

INTUITION.  
"Henry, how do you like my new hat?"  
"Well, dear, to tell you the truth—" "Stay right there! If you're going to talk that way about it, Henry, I don't want to know!"

Advertising is an insurance policy against forgetfulness. It compels people to think of you.

## Heart to Heart Talks.

By EDWIN A. NYE.

O JUST JUDGE!  
Jim Flanagan was charged before the court of Justice Connolly of New York with assault upon his father. When the father had given his testimony, the little, knock-out blow young Flanagan raised his hand and said:

"I licked the old man good and plenty, judge. And if I ever come home to find that he's been beating mother again I'll send him to a hospital for a month."

The wise justice let Jim go on. "I've picked the hospital too. There's a doc there told me just where to stick one on the old man's jaw so it won't hurt him much after he comes to."

Bernard Flanagan, the father, six feet three and built like a Norman horse, said in defense:

"I never touched the old woman with my foot. I just bent her up a little because she sawed me. A man's gotter right to be boss in his own house."

The judge asked the father if he ever worked.

"Not while this big stiff's got a job," he replied, pointing to his lucky son.

Dismissing the case, Justice Connolly said, "I wish a word with you, Jim." And the father stayed, expecting Jim would get a severe lecture.

"Jim," said the magistrate, "if you ever find it necessary to beat up the old man, remember that my days on the bench are Mondays, Wednesdays and Saturdays. And Jim?"

"The old man listened closely."

"Don't mark your father, Jim. I'll hit him where he wears his clothes."

Now, it is not every court that is able to rise to the emergency in a delicate case like this.

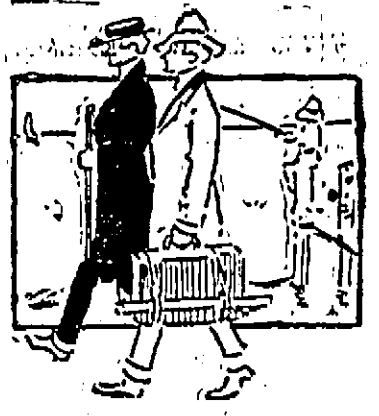

Nor is it every household which is in possession of such an athletic instrument for carrying out the orders of the court and meeting justice—more's the pity.

Power to Jim Flanagan's elbow! Justice Connolly, it is said, is a great believer in the respect that should be paid to parents and is accustomed on occasions to quote his favorite Scriptural abjuration—

"Honor thy father and thy mother."

But somehow in this case the quotation from the Mosiac law seems to have stuck in his throat. Perhaps if the judge were a higher critic of the Old Testament Scriptures he might put it this way:

"Honor thy father—when he behaves himself—and thy mother."

HOW A DOOMERANG ACTS.  
Rich Father: "When I was a young man, of your age I was compelled to keep an accurate expense account and wasn't allowed to be out at night later than 11 o'clock."

Son and Heir: "Sorry to hear it, governor; your father couldn't trust you as safely as you can trust me."

## COTTON BULLS ARE INDICTED.

Arrests to Be Made Today, Is Report Heard in New York.

New York, June 17.—It was reported that the federal grand jury which has been investigating the operations of the bull movement in May cotton has returned indictments against several prominent brokers. Warrants, it is expected, will be issued today.

No official confirmation of the report could be obtained, but the rumor is given color by the fact the government officials in charge of the investigation recently announced that indictments would probably soon be forthcoming.

## HEIKE GIVES \$25,000 BOND.

Hearing on Motion to Suspend Sentence Set for August 30.

New York, June 17.—Charles R. Heike, secretary of the American Sugar Refining company, gave bond, following his conviction of conspiracy to defraud the customs by sugar underweights. Hearing on motion of Heike's counsel for suspension of sentence, pending appeal, is set for August 30.

WHAT WOULD HAPPEN.  
"Captain," he asked on the way back from Europe, "what would be the result if we should collide with an iceberg?"

"You wouldn't have to worry another bit about the iceberg," the customs collector in New York.

## VALUE OF OLD SHAWLS.

How They Can Be Used For Artistic Decorations.

The woman who clings to the old fashioned habit of "keeping things" is sure to have a shawl somewhere among her possessions. Shawls went to the attic and the storeroom several decades ago, when their career of fashion ended.

An artistic arrangement makes of a shawl both a wall hanging, and a cover for the top of an upright piano. Before the shawl is hung a strip of strong, dark colored cotton cloth should be sewed securely along one edge and loops of silk cord attached to this. These loops are fastened to picture hooks, so that the shawl may be suspended from the picture molding without the use of tacks.

In a room with a ceiling of average height and a molding placed at the usual distance from the ceiling a shawl hung in this way will reach smoothly down to the piano and be long enough to cover the top with the border hanging above the music rack. This is a satisfactory arrangement for increasing the apparent height of a low ceiling. Above the piano, covering the center of the shawl, which is always a plain piece of red or black or white cashmere, an ivory toned plaster bas-relief may be hung. A framed photograph of an etching will be equally suitable, but a colored picture must not be used.

All old shawls are entirely too delicate to be used as couch covers, though many of them have come to their untimely end through such usage. They are too rare and beautiful for rough handling. They must be looked over occasionally as a precaution against moths.—Deliberator For March.

## CARE OF FURNITURE.

How Upholstered Pieces Can Be Cleaned by a Simple Method.

It is not always possible to take up upholstered furniture into the open for a thorough cleaning and beating. In cities or where there is neither yard nor porch for such work many housekeepers make this lack an excuse for letting furniture get into a condition that would horrify them could they realize the germs and dirt concealed.

This is the less excusable as even heavy tufted furniture can be kept clean indoors without raising a tornado of dust.

Here is a simple plan:

Wring out of a warm water a cloth that is large enough to cover a large portion of the furniture. The cloth should not be thin and should be just damp and not wet.

Beat the cloth well with a rattan beater. When one side has become dusty the cloth can be turned. Sometimes it will be necessary to use several cloths on a single piece. Continue until the cloth is wet soiled. The dust sticks to the wet surface, and the furniture is freshened by the treatment.

If the color of the furniture is not too delicate the cloths can be wrung from hot ammonia water to still further brighten the covering.

If the beating has not removed dust from the corners of tufted furniture it should be attacked with a small, stiff toothbrush. Better yet, two can be used, first a dry one to get out the worst of the dirt and then one just moistened with hot water to act like the damp cloth.

Remember moistening does not mean wet. Make a mistake and your furniture is streaked, possibly ruined. When the upholstery is clean, rub up the woodwork with a polish.

How to Clean a Gas Stove.  
When cleaning your gas stove you will find that a cloth moistened with kerosene oil will remove grease and dirt more easily than one wrung out in soap and water. It is essential to keep the air mixers, or "lungs," of the stove clean, for if they are clogged with bits of food or dust the fresh air cannot mingle freely with the gas.

When the flame burns yellow or red instead of bright blue it is an indication that much heat is being lost for want of air. A bicycle pump will often clean out the burners quickly. When giving the stove a thorough cleaning boil the grates and burners in a pan of water in which there is plenty of washing soda. If a clean newspaper is folded to fit the grates and tucks under the burners it will catch a great deal of refuse. The paper may be removed daily, and such a practice will save much scrubbing of the tray.

How to Save a Burned Cake.  
When cakes do the most trying thing to the baker—burn on the sides and bottom—instead of mounding over your loss, seek to repair it. Unless the burn is deep it will not alter the taste of the cake, though perhaps it will be a little drier in consequence. It is so unsightly that it must be covered up at any cost. Instead of cutting off the edges of the cake with a knife, as is usual, try removing the black with a fine grater. This removes all the dark portions and leaves a smooth surface for icing. Clean, fine sandpaper can be used in the same way. The cake must be handled delicately and not until cold, or it will fall and turn soggy. Ice on the brown sides, and if burnt on the edges as well as bottom, particularly in small cakes, cover the sides as well as top with icing.

How to Clean a White Straw Hat.  
Put a teaspoonful of salts of lemon into a saucer of hot water and when it has thoroughly dissolved clean the hat by scrubbing it with a brush dipped in the mixture, rinse and let it dry in the open air, preferably in the sun. Another method is to scrub the hat with a brush dipped in flowers of sulphur and lemon juice and then rinse in clear cold water.

## Too Late For Me to Help Him

Just the other day a man sat down in my chair and said, "Look at the work you see in my mouth, and tell me what your regular price would have been for such a job."

I looked him over carefully, and found that \$25 would have been my price for that amount of dentistry.

"Well," said he, "That is exactly what a Chicago Dentist estimated the job worth."

"And now I am being sued by a Janesville Dentist (who did the work). He asks \$67, and because I am an unmarried railroad man, he thinks he can force me to pay the bill, or lose my job."

It was too late for him to save himself, but

As early as 1629 a small glass factory was put in operation at Salom, Mass., and William Penn refers to a factory that was opened by the Quakers of Philadelphia in 1683. A glassmaker named Jan Sneedes finally received a license of land on Manhattan island for the purpose of opening a factory. The business he carried on for some years gave the name of Glassmaker's street to what is now South William street. As early as 1754 a small glass factory was built in Brooklyn.

## WILL INVITE THE STATE GATHERING FOR COMING YEAR

Local Aerie of Eagles Plan to Secure 1911 Convention for Janesville

If Possible

Janesville is to make an official bid for the Nineteen Eleven convention of the state organization of the Fraternal Order of Eagles. This has been decided upon for some months past and the local aerie has had its convention committee at work for the past year raising funds for the necessary expenses of delegates and hostesses to attend the meeting at Sheboygan on the 9th, 30th and July 1 to present Janesville's claims for the honor.

The local aerie numbers over four hundred members and is entitled to five delegates at the convention and has named the following: E. B. Connor, J. J. Cunningham, Hugh M. Joyce, Jr., Fred J. Schmidt, and Michael Mulvaney, as delegates and J. J. Dulla, Louis Anger and Wm. Lomnitz as a special committee of "hostesses." John C. Nichols is secretary of the organization and will also be in attendance making eight of the local aerie to do the work of presenting Janesville's claims.

The bringing of the convention to Janesville would be a big thing for the city. It is usually held in June or July and adds from the two hundred odd delegates usually attracts some thousand other visitors who attend to enjoy the fun and take part in the program which includes processions and other forms of entertainments.

Janesville is unusually well situated regarding railroad facilities. It has been suggested that the convention be held here so that one of the days of the session be on July 4th when a grand celebration which would attract thousands of visitors could be held.

There are several other cities seeking the honor and the committee which has had charge of the preliminary work has received many promises of support; sister aeries promising their support in bringing the convention to Janesville next year. Last year it was held at Waupun and this year it is at Sheboygan.

It is probable that the matter of financial support of the business men generally will be taken through the medium of the Industrial and Commercial club before the delegates leave for Sheboygan so that they will

**WILEMAN-STODDARD.**

Edgerton, June 17.—The home of Mr. and Mrs. Henry Wileman was the scene of a pretty wedding yesterday when their oldest daughter was united in marriage with Mr. Valentine Stoddard of Richland Center. Rev. R. K. MacLure read the service at four o'clock. The happy couple were attended by Lloyd Wileman and Miss Ida Walders of Madison, and a large company of relatives and a few near friends witnessed the ceremony which took place under an arch decorated with ferns and carnations. Following congratulations a beautiful three-course wedding dinner was served.

The bride is one of Edgerton's estimable young ladies and the groom a popular young man holding a lucrative position in the wagon works at Stouten, which place will be their home. Many friends join in extending best wishes.

Among those attending from out of town were Mr. and Mrs. Fred Johnson of Ft. Atkinson, Mrs. Stoddard of Richland Center, Miss Elma Spencer, who played the wedding march, of Janesville, Mrs. Andrew Christensen and here two daughters, Josie and Agnes, of Chicago. Miss Josie acted as flower girl.

OLIVER SPITZER ON WITNESS STAND.  
Former Sugar Trust employee who confessed to having perjured himself to save others.

MAY SUCCEED SENATOR TALIAFERRO IN THE UNITED STATES SENATE.

Napoleon D. Draward.

Jacksonville, Fla.—The way in which Napoleon D. Draward won the nomination at the primaries for United States senator over Senator Taliaferro is still the principal topic of political discussion throughout the state. While it was conceded that he had a strong showing, it was thought that Senator Taliaferro would be able to gain the primaries. The nomination practically amounts to election.

In 1891 he was elected governor of Florida, which office he held until succeeded by Albert W. Tilghrist, the present incumbent. Draward is a self-made man, just past middle life. He was born and reared on a farm and his education was obtained at the country schools. At the age of 12 he lost both parents and had to face the world alone. He began work in a log camp for an uncle. Later he was steamboat roustabout, coal fisherman on Grand Banks, and seaman on sailing vessels and sailing boats. He worked his way up until before his majority he was bar pilot on St. John's bar, Florida. From this he became joint owner of a steamboat plying between Mayport and Palatka, Fla. He is now engaged in steamboat business and in the towing and wrecking business at Jacksonville, Key West and Tampa.

His public career began as sheriff of Duval county. In 1904 he entered the Florida state legislature and four years later was elected governor of the state. In this honoring one of her sons Florida has paid tribute to a strong man, who has won his spurs by dint of toil.

Full Beards for Farmers.

The protection of farmers and others who are exposed to the heat a great deal is a serious and difficult matter. Cancer is on the increase, and farmers furnish a large proportion of the cases, many of them being due to the direct effects of sunlight on the face and hands. A full beard for the farmer is most desirable for his protection.—North American Journal of Homoeopathy.

His Funeral Pile.

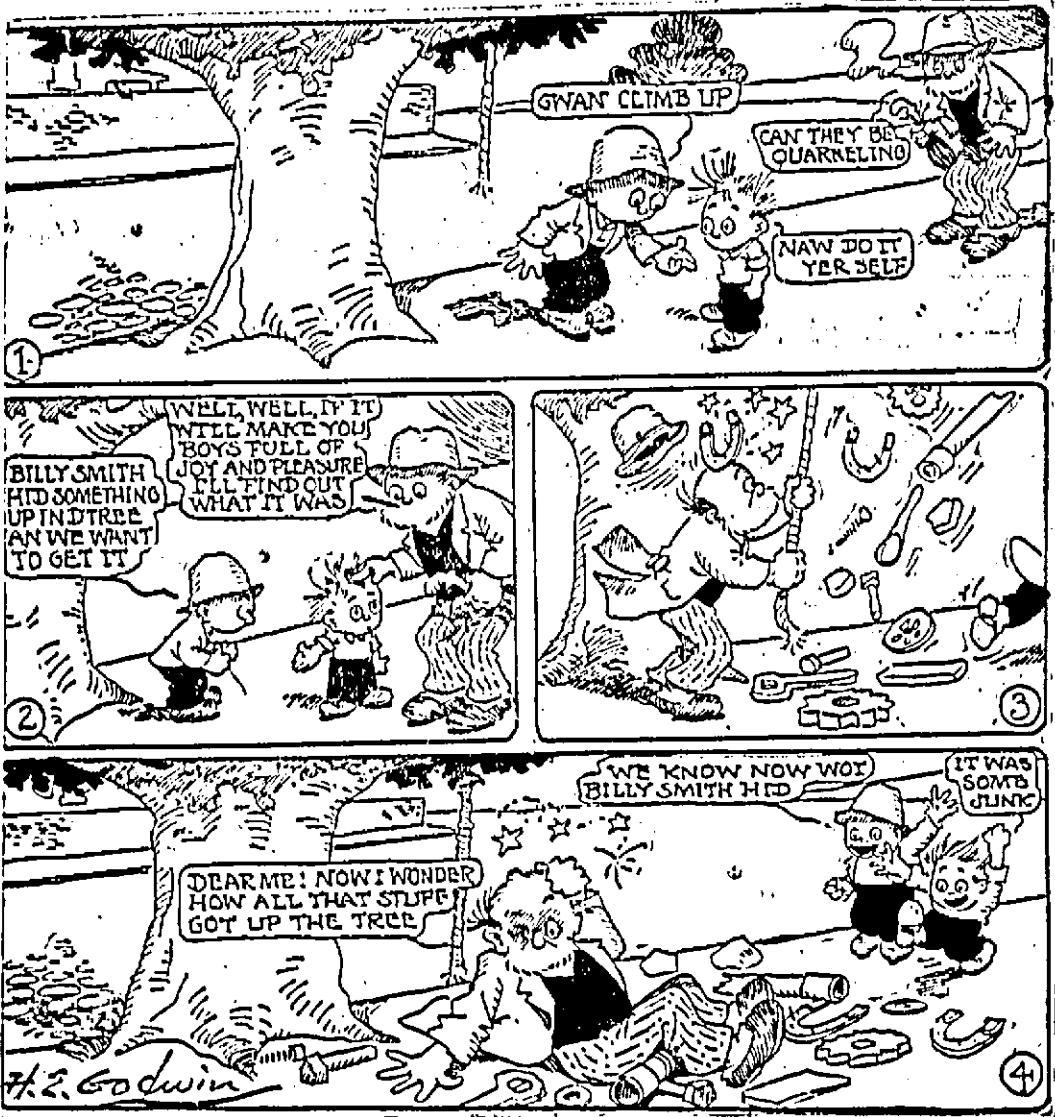

"The man who works himself to death," says the Philosopher of Folly, "finds that his money is nothing but his funeral pile."

Other Folks' Joy.

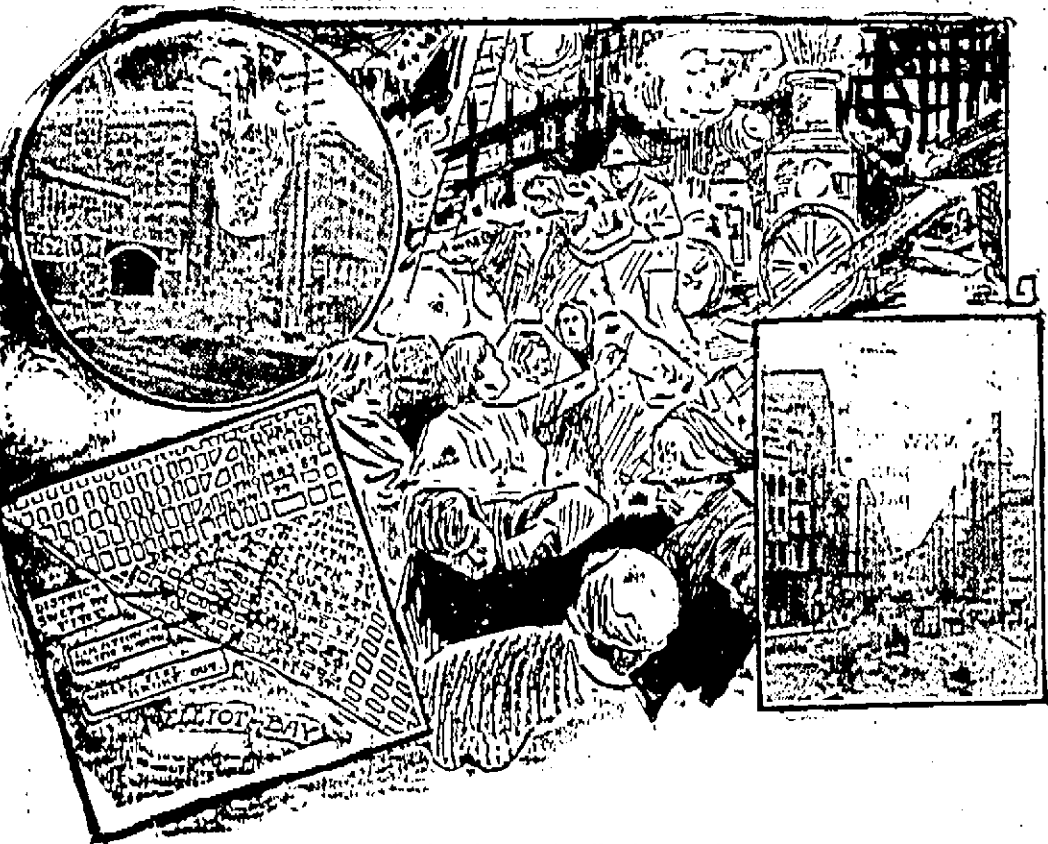

We should be cheerful creatures if we could have no joy in our fellow mortals' joy, unless it were in agreement with our theory of righteous distribution and our highest ideal of human good; what sour corners our mouth would get—our eyes, what frozen glances! and all the while our possessions and desires would not exactly adjust themselves to our ideal.—George Elliot.

Real Pathos.

There is nothing so pathetic as the efforts of a dull mind to produce bright speech.

RAISING OF MAINE A BIG JOB.

View of the Maine as it appears in Havana harbor today. Sketch showing position of hulk in water and mud. Read Admiral Charles D. Sigbee, who commanded the ill-fated battleship and is intensely interested in the raising, believing it will prove his theory that the catastrophe was not due to any accident, but to an outside force.

Washington, D. C.—The raising of the Maine is a much more difficult work than is apparent at first. The hulk lies in 31 feet of water and below that 18 feet of ooze. The ooze itself furnishes one of the hardest problems to solve. It makes the water about the wreck so turbid that divers can see nothing and must feel their way about. There is also grave fear that in raising the ship so much silt and debris will be brought to the surface that it may cause an epidemic. Among the plans considered are the cofferdam system which would require considerable expense and is said by some experts not to be practical. Another scheme is to hoist the hulk to the surface by hydraulic jacks and then float with water-tight caissons. The world will watch the event with unusual interest, owing to the difference of opinion as to the cause of the explosion. It is thought the question will be finally settled at this time.

## ARE YOU A MEMBER OF THE BOY SCOUT MOVEMENT?

English organization known as boy scouts, spreading to America under the directions of well-known military leaders.

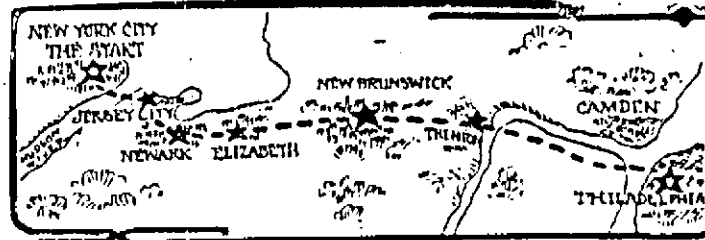

New York.—If the ideas and aims of the boy scout movement can be attained it will train the American youth and put them on their mettle as nothing else can. The movement is copied to a large extent after the English movement started during the Boer war. The aim is to drill the boys to be chivalrous, patriotic, brave and self-reliant. The movement in America has been taken up by Lieut. Gen. Nelson A. Miles and General F. D. Grant and Adm. R. C. Crutcher. Hugh S. Miller of Chicago is secretary of the temporary committee in charge of the organization throughout the middle western states. Boys are organized in each locality and instructed in military drills, woodcraft, campaigning, chivalry, camping life, endurance and patriotism. There are three kinds of scouts, first class, second class and tenderfoot. The boys are promoted from grade to grade as they advance and become proficient.

Lay Hold of the Common Good.  
If men have the presumption of those who claim a reputation to which they have no right, they equally condemn the faint-heartedness of those who fall below the glory which is their own. Lose, then, the sense of your private sorrows and lay hold of the common good!—Demosthenes.

## The Optimist's Corner

Daily Helps to Health and Happiness

By GEORGE F. HUTTLER, A. M., M. D.

The following rules, as set forth in Thompson's Dietetics, are applicable to all cases of dyspepsia and indigestion:

1. Eat slowly and masticate thoroughly.
2. Drink fluid an hour before or two or three hours after meals, rather than with food.
3. Eat at regular hours.
4. If greatly fatigued, lie down and rest quietly before and after luncheon and dinner or supper.
5. Avoid as much as possible taking business worries or professional cares to the table.
6. Take systematic exercise in the open air. Bicycle and horse-back riding are the best forms.
7. On rising, cold sponging and vigorous friction of the body are advisable.
8. The bowels should be kept open by laxative foods and fluids rather than by medicine.
9. Avoid too much variety at any one meal. Take meats and vegetables at separate meals.

## The Evening Chit-Chat

By RUTH CAMERON

I MET a young person yesterday whom I had tried half an hour the evening before to get by telephone. "Where were you and your mother between seven and eight last night?" I demanded. "At home," she said. "No, let me see. Oh, yes, we went over to the Lombards to hear their new phonograph, and had to stay an hour to hear all the records. Why?"

"Well, I tried and tried and tried to get you by telephone. Marion and I were going to the theatre, but Marion was called on a case at the last minute, and I thought you'd like to go."

"Like to go," she said, solemnly. "Ruth, you ought to be given a week in solitary confinement on bread and water for telling me that. Don't you know I haven't been to the theatre for months, and that I was bored to extinction last night, and that I hate phonographs anyway, and that I'll spend the rest of the day thinking if I'd only stayed at home instead of going over to hear that wretched thing I'd have had such a good time. Positively you are cruel."

I own the soft impeachment. I certainly ought to have known better, for haven't I, like all the rest of the world, suffered agonies of regret over the might-have-been opportunities and pleasures that the people who just missed being able to bestow them upon me, insisted upon telling me about?

Indeed I ought to have been especially thoughtful about that detail, for even now I am tormented with uneasy but persistent regrets over a beautiful bargain in a horse that would have been just that sprightly but obedient, able-to-go-miles-in-two-days-and-yet-sound-as-a-bomb mileage of a horse that I've been dreaming of and saving for many years.

"All but had a chance to pick him up for you, Miss Cameron. The man that owned him had to go away, and sell him at any sacrifice. If I'd been half an hour sooner I'd have clinched him for you."

"Of course I'm awfully grateful for my friend's kindness in thinking of me. But I do wish he hadn't told me about it, for I suppose the ghost of that lost opportunity will haunt me for life; and if I were to own a stable of Arabian mares it would be incomplete without that phantom horse."

Regrets are most unpleasant things to feel. It might have been an infuriating out of all proportion to their importance. The pleasures and opportunities we just missed are the most tantalizingly enjoyable things on earth—aren't they?

Well, then, if you assent to that, I'm going to consider that you have promised yourself never to let the knowledge of their lost opportunities upon your friends.

## DISPENSING GLOOM OR GLORY.

BY MARY RUSSELL.

The sun hasn't been shining much this spring so we have all had to keep our own particular brand of sunshine.

Each individual is either a dispenser of gloom or glory. Have you ever noticed how much easier it is to tell your perplexities to some people than to others? Sometimes you feel that one person has the key to your worry and yet you dare not branch the subject which nearest your heart to that person. When you think you are all ready to talk your heart out, a life of the chin—a flicker of the eyelid—a certain absent-minded air and your words remain unspoken—your question unasked.

Some people make gaiety and heart warmth wherever they go, while others bring an atmosphere of cheerlessness and discontent. I have known a party of gay, happy-hearted people to be effectively silenced and chilled by the entrance of such a person. It is a sad handicap in life's little race. The ability to spread cheer and comfort is worth more than money can buy. It cannot be bought or taught. It comes from the heart of the person—but if you are one of the unfortunate social wet blankets it would be worth while to try to see where the fault lies and make an effort to do better.

This ability to spread happiness we

call magnetism or perhaps charm. It matters not what the name is if you only possess the quality. It seems to me to be a general kindly sympathy. If the theosophists are right, it comes from a broad experience in other lives. Sympathy with many sides of existence comes through experience, but sometimes this ability to cheer and comfort is given to every young child, and young people, who have had no experience. Either then it comes from fine intuitive powers, or there is more in theosophy than we some of us think.

Life is so complex sometimes that we give up wondering why things are thus and so and merely try to make the best of what we have here at hand.

That is always a fine plan, provided we really make the best. It is not making the best of a great sorrow to spread it over all your immediate neighborhood. It is not a wise disposition of trouble to share it with all your friends.

Share your joys broadly and freely. Spread the sunshine of your life widely, but sorrow and sin and pain are all the only for burial. Bury them deep in your own heart. Cover them over with flowers of good deeds. You may not dance on the graves, but at least you will walk cheerily and be helped by love and hope and kindly friends.

Better, glad than grieve. Better hurry than lag. Better keep silent than babble unwisely or unkindly. Think it over.

## Just a Bee Story.

There is nothing strange about the tale of that Spring City man who says that when his bees could not store honey they gathered shellsharks. It used to be one of our particular delights to go out of an early morn and watch bees crack shellsharks with their teeth.—Philadelphia Inquirer.

## Cleopatra Homely!

So Cleopatra was homely after all! Well, at its worst, history is only like those newspapers in which every police court headline is young and beautiful.

Mitchell, Box 2, Sabbath, Me.

Another Woman Helped.

Granville, Vt.—"I was passing through the changes of life and suffering from nervousness and other annoying symptoms. Lydia E. Pinkham's Vegetable Compound restored my health and strength, and proved worth mountains of gold to me. For the sake of other suffering women, I am willing you should publish my letter."—Mrs. Charles Bancroft, R.F.D., Granville, Vt.

Women who are passing through this critical period or who are suffering from any of these distressing ailments to their sex should not lose sight of the fact that for thirty years Lydia E. Pinkham's Vegetable Compound, which is made from roots and herbs, has been the standard remedy for female ills. In almost every community you will find women who have been restored to health by Lydia E. Pinkham's Vegetable Compound.

Court Martial Duty at Manila Probing Strange Death of Lieutenant, Mrs. Janney, over whom the trouble arose.

Washington.—The war department anticipates a speedy end of the court-martial of Lieut. Col. Robert F. Ames of the Twelfth Infantry, now in progress in Manila. The proceedings are under the supervision of the commanding general, and the war department will not hear officially from the trial until, at its conclusion, the court record and findings are transmitted to Washington.

The trial is the result of the death of Lieut. C. M. Janney. At a dinner party at which both Janney and his wife were guests with Colonel Ames, Lieutenant Janney became angered at

the discovery that a trinket had been given to the colonel by his wife, and he left the house. He returned shortly afterward and met his death from a pistol shot wound. He had brought a revolver with him.

A court of inquiry found that the death of the lieutenant was chargeable to himself. The affair created such a sensation in the army that the court martial of Colonel Ames was ordered.

Mrs. Janney is a beautiful woman who married the lieutenant as her second venture in matrimony. This was while he was on duty at Governor's Island, New York.

## Revelations of Color.

Colors tell a tale. Pompholyg-ubry shows a painful affection for musty blacks, for sickly fawns and growsome grays. Those of overflowing vitality, on the other hand, love bright colors—orange, scarlet and blue. People of amiable, but rather indefinite character, show a decided preference for pale shadowy shades—pale-blue, pale-pink, white or cream.—Gentlewoman, London.

## FAT FOR COLD WEATHER.

More fat should be eaten in winter than in summer, to supply heat. Bacon, pork, lard and butter serve the purpose, but olive or peanut oil is preferable, because more easily assimilated and freer from contamination. Peanuts and walnuts contain a large proportion of oil, but relatively too much albumen. If two fistfuls of Virginia peanuts, unroasted, or a dozen walnuts are eaten daily, and two tablespoonfuls of olive or peanut oil taken, made more palatable by adding a little lemon juice, the necessary fat will be obtained, and it will be found that the oil facilitates elimination of waste. Meat can be produced from albumen, starch or sugar, but with greater expenditure of vitality. The decomposition of an excessive amount of albumen is especially wasteful and tends to rheumatism and Bright's disease. This should be particularly guarded against in advanced years.

## You need not suffer from sickness, and you need not fill yourself with drugs in order to be made well.

## The great new science of Chiropractic

has shown the world that in order to be made well and to remain well, it is necessary to remove the cause of the ailment, and that the cause of the ailment is the body which controls every function and organ of the entire human system and every nerve (chiropractic) in all parts through the spine. When certain nerves do not perform their functions you become sick. The way to remove the cause of the sickness is to get at the person that is not working. This is done by Chiropractic adjustment of the spine. Almost every ailment is curable by the Chiropractic method. If you suffer from sickness of any kind, call for free consultation and advice.

## Origin of Humbug.

A plausible clue to the origin of "humbug" is that which credits the rubbishy coin made for Ireland by James II. as the origin. The people talked of this base stuff as "um bog" (soft copper), so that one frequently heard the phrase: "Don't think of passing your um bog off upon me." As backing up this Irish ancestry one need only think of "sterling" coin and "sterling" worth. But the most popular claimant is Prof. Hurlingham, who ran a dancing academy in Dublin in 1777. His advertisements in the *Freemason's Journal* of that year were masterpieces of appeal to the young ladies of the city, and their bluntness would easily account for the popularity of the word.

If all thought alike, there would be no horse trading or advertising.

## GETS \$1 DAMAGES

## FROM INTERURBAN

Commissioners Fix That Sum As Measure of Injury Done to Property on South Frank.

In Street.

Prof. E. G. Smith of Boland college, George W. Yahn, and Fred L. Clement, the commissioners appointed by Judge Grimm to determine what damages, if any, had been sustained by owners of property on South Franklin and Jackson streets by reason of the presence of the Rock & Interurban R. Y. tracks, on those thoroughfares, have reached a decision in the case of John Plowright. Witnesses for Mr. Plowright, when the case was heard, were of the opinion that he was entitled to sums ranging from \$500 to \$1,000. The railway company contended that he should receive only nominal compensation, if anything. The commissioners have fixed the award at one dollar. The test case has been pending for some time as an appeal was taken to the supreme court from the order appointing the commissioners and various other preliminary proceedings were had before the trio of business men were per-

## KILLED BY TRAIN

## NEAR KOSHKONONG

William Leutke, a Section Foreman, Was Run Down by Watertown Passenger Yesterday Afternoon.

William Leutke, a section foreman, was struck by the C. & N. W. Chicago and Watertown passenger near Koshkonong station at one o'clock yesterday afternoon and sustained injuries from which he died before he could be conveyed to his home in Ft. Atkinson. His skull was fractured and his left shoulder was broken.

The unfortunate man and a crew working under him had been doing some rebuilding along the right-of-way and through some brushy places had left a rail gauge on the track. Leutke was hurrying back to get his gauge before the mail train should pass when he was run down. The engineer saw him when it was too late to stop.

Decened was 50 years of age and leaves a family consisting of a wife and eight children. They moved from Jefferson to Ft. Atkinson a week ago.

This is the fifth fatal railroad accident in the vicinity of Janesville within the past two weeks. A list of the other victims would include: Leonard Widenford of Delavan, killed near the C. & N. W. freight house at Janesville; Matthew Dalton, run down about a mile south of Harvard; Elmer Edwards of Ladysburg, killed on the C. & N. W. right of way near Levens; and William J. Helms, killed yesterday by a C. M. & St. P. freight train at Watertown.

## CHICKEN THIEVES STOLE

## YOUNG CHICKS FROM COOP

Marauders Took Away Eighty Fowls Belonging to Henry Schenkel of Southwest Lima Recently.

(Special to the Gazette.)

Southwest Lima, June 16.—Chicken thieves broke into the chicken coop of Henry Schenkel recently and stole about eighty eighty recently-hatched little chicks.

James Bennett has been hauling corn to Whitewater.

Local anglers have had very good luck in catching fish.

A number from this vicinity attended the Old Settlers' picnic at Palmyra on Thursday.

O. J. Berg gave a dance in his new barn last Saturday evening. A large crowd was present and the affair was much enjoyed.

Miss Richards was the guest of Mrs. O. W. Bennett the first of the week.

Will Woodrick and Jno. Lackner were in Whitewater on Wednesday.

Mr. and Mrs. Chas. Stollard were visitors at Jas. Water's on Sunday.

Henry Krus is preparing to rebuild his barn.

School closed in the Palmer district last Friday with a picnic.

## TWO WEDDINGS IN

## NEAR-BY CITIES

Mae Smith and Albert Thalinger married at Chicago—Collins-Barr.

Nuptials at Rockford.

Miss Mae Smith, daughter of Mr. and Mrs. William Smith who reside at 921 Center street, and Albert Thalinger were wedded in Chicago at half past seven o'clock Wednesday evening.

The ceremony was performed at the Washburn Avenue Methodist parsonage by Rev. H. O. Ebnale.

The couple will reside in Chicago.

Ceremony at Rockford.

Miss Maggie Collins and Ivan Barr, both of Janesville, were wedded by County Judge Beckow at Rockford on Wednesday.

Mr. Barr is a farmer.

Mr. and Mrs. Warren P. Collins, who were married at St. Patrick's church, Milwaukee, on June 8 and who have been spending the past week with the bride's sister, Mrs. P. E. Welsh, 182 South Jackson street, this city, departed this morning for a trip through the east.

## BOLD PENNSYLVANIA BURGLARS.

While the chief of police of Mount Oliver, near Pittsburgh, was guarding the homes of the borough, burglars entered his home the other night, and carried off a good watch, silverware and diamond rings that were secreted in a china closet. Two houses in the immediate vicinity were also entered.

## What A Man Owes to the Town He Lives In.

There are many manufacturers in his town to own some part of it. He may own only enough furniture to call for his paying taxes, but he should own something. There never was a fair minded man who owned so small a part of it that dared to speak of his town as "his." His town always is "our town." He is vitally interested in his town, he is willing to give a part of his time to help make "our town" better and bigger.

The Janesville Industrial and Commercial Club through its executive committee have started a little plan of arousing more interest in Janesville. The plan is a slogan contest. Every progressive city in the country and most of the greater manufacturers have a slogan that to just mention the slogan brings to your mind at once the name of the manufacturer and his product. It is good publicity for them to have a widely known slogan. It is the best sort of publicity for this town if they can get a good slogan that will make this city stand out as a big shining spot on the map.

There is a coupon printed in another part of this paper. Think of a slogan and get your boy or girl to send it in to the Secretary's office. You are a stockholder in this town—we are all partners—let us all work together—now—for a greater and better known Janesville.

There are many manufacturers in this city now who are doing great things for Janesville. Through the advertising they are sending out to magazines and newspapers all over the country. These men are spreading the fame of Janesville. These men are doing much towards building up this city and by this building up they are doing a share towards making every bit of property more valuable. By all working together we all will profit and progress that much faster.

Now—all together, let's be for Janesville all the time.

## ALDERMEN INSPECT

## FOURTH AVE. BRIDGE

In Company of Mayor Carlo to Determine What Course to Pursue—May Decide on New Structure.

Mayor W. F. Carlo and members of the common council were scheduled to visit the Fourth avenue bridge at four o'clock this afternoon for the purpose of determining whether or not it will be for the best interests of the city to rebuild the structure or to replace it with the steel and concrete structure, plans for which have been drawn by the city engineer. It is understood that the highway committee favors a new structure costing about \$20,000. The bridge is closed at present, pending some repairs which will have to be made on the planking before it will be safe to throw it open to traffic again.

## BATTLE OF BUNKER HILL

And Boston, Charlestown and vicinity joined in the customary celebration.

Boston, Mass., June 17.—Boston and vicinity today joined in the customary celebration of the anniversary of the battle of Bunker Hill. The patriotic demonstration centered, as usual, in Charlestown, the scene of the famous fight. The celebration was begun at midnight with the lighting of huge bonfires. In the forenoon there were military and pageants, followed by patriotic exercises at which addresses were delivered by prominent speakers.

# Eat ITEN'S Crackers and Cookies This Week and Every Week

They Tickle Your Palate Like I Tickle the Kids

For nearly a year we have been telling you about the Crackers and Cookies made in the only Snow White Bakery in the country—telling you how carefully all our products are made—telling you how good they are—and now—this week—we're distributing samples to every home in this city.

You have probably for years been buying some special brand or any old brand of Crackers and Cookies and been fairly well satisfied.

Why not be perfectly satisfied—KNOW, always, that you have dependable Crackers and Cookies in the house? Why not buy ITEN'S?

Any one can put crackers up in a sealed carton—that is a present day necessity, but there is only one Cracker factory in the United States whose crackers and cookies are made under ABSOLUTELY IDEAL SANITARY CONDITIONS—Remember that. Why, we DEMAND that our employees shall use individual towels—that they shall wear CLEAN aprons and suits

(these must be changed every day)—we have shower baths—a patented apparatus which changes the air throughout our factory EVERY TEN MINUTES and WE BUY in the open markets THE BEST MATERIALS MONEY CAN GET to put into our crackers and cookies. Think of it, we have installed individual motors, that there may be absolutely no dust anywhere in our factory.

Then our building is so constructed that at no time can any other building be built near us. We are located right on the bank of the great Mississippi—could any food product factory, be more ideally located?

You start buying ITEN'S Crackers and Cookies and for all time after, when any one dares to offer you a "just as good" cracker, you'll say:—"Send that 'just as good' cracker out to get a reputation—ITEN'S Crackers suit me." Try ITEN'S, this week, on us.

Congressman Dalzell's Nomination Goes to Recount.

Pittsburg, Pa.—The fight between Dr. Robert J. Black and John Dalzell for the congressional nomination is not over yet. On the face of the returns Dalzell won by something over 200 votes. A recount has been demanded by Dr. Black, who claims that he has evidence to show to the county commissioners which will prove that fraudulent voting occurred in 65 of the 171 polling districts.

The Dalzell people deny emphatically any knowledge of election fraud and maintain that a recount would establish Dalzell's lead by even greater majority.

#### Did Not Worry Her.

Have the terrors of the French revolution been exaggerated? A French woman mentioned in Sir Montagu Grant Duff's diary had lived in Paris through the last 30 years of the eighteenth century, and when asked for her impressions of the tragic times of the terror replied: "The whole affair has been vastly exaggerated. For my part, I never found it necessary to abandon my weekly 'at home' days."

Washington, D. C.—Two important features have developed in Nicaragua. One is that the life of Consul Thomas P. Moffat has been threatened, and the second is that Rear Admiral W. W. Kimball, in charge of the American forces in Nicaragua, has reported to Secretary of State Knox advising the withdrawal of American troops.

Secretary Knox, after a hasty conference, decided it would be impossible at the present time to withdraw the American forces as it would give recognition to the government under Madrid, which the United States has

never recognized. In leaving the forces there it is generally accepted as lending aid to the Estrada rebellion.

## FORTY YEARS AGO

Janesville Daily Gazette, June 17, 1870.—Jottings.—At a special meeting of the Council held last evening, Mr. A. K. Curtis was elected City Marshal. A good selection.

Blue berries have been for sale in this market today. They were as fine as any we ever saw.

A man named Daniel Mulligan had the misfortune to lose his team this morning by drowning in the race. He had hitched the horses to the wagon and driven them into the water to drink, when by some means the reins became entangled with the pole in such a manner as to hold the animals

heads down, and in the meantime they got into deeper and deeper water, and finally were swept down and drowned. The loss falls on the owner with great severity as he is poor and his team was his all. A subscription paper has been put in circulation for his benefit.

The frescoing and much of the painting of the new Methodist church has been completed and the scaffolding taken out. Both are executed in remarkably good taste, and it is plain to be seen that the room, when finished, will be one of the finest in the city.

English at the University.

To an American in England nothing is more surprising than the discovery that neither Oxford nor Cambridge provides any opportunity for the serious study of English. At Oxford, for example, there is only a single professor of English literature, whereas there are ten or a dozen at Harvard and Columbia.—The Forum.

New Book of Kings.

A fine book might be written upon the psychology of royalty, containing all the human documents that have come down to us from the rulers of the past. Such a book would make us think more kindly of those rulers—even of that long list of the kings of Israel of whom we are told nothing except that they did evil in the sight of the Lord.—London Times.

### Senator Hale's Whims.

Senator Hale, who will pass from public life at the close of congress, has many peculiar whims and fancies. Employees at the capitol regard him with awe. It is his practice to enter the building at the east front and take the elevator. He never notices any of the boys who might be standing around. One day, however, contrary to his usual custom, when he entered the building, the senator, was all smiles and graciously tipped his silk hat to the watchman and elevator man. The incident caused a small panic. "The senator is going to put a good thing over this day," said one of the employees.

**GREAT LAND SALE**

Vast Tract of Rich Land in the Round Lake Country, Wisconsin, Offered to Settlement by the American Immigration Co., of Chippewa Falls, Wis.

**SALE BROOKER WIDENBREAD INTEREST**

The timberman have at last released for settlement their vast tracts of rich Wisconsin land, a total of over 50,000 acres. The very best of this land, comprising 10,000 acres in the famous Round Lake Country, in Sawyer County, Wis., is now being cut up into farms and sold at from \$3.50 to \$20 per acre on ten years' time.

The low prices and easy terms on which this rich land may be secured challenges the attention of the owner of ill-fertilized land and the tenant farmer as well.

The American Immigration Company's great development plans are rapidly bearing fruit, and new towns are being laid out, new railroads are coming, and settlers are busily building homes and getting the land under cultivation.

These lands are in the very heart of the state's richest dairy section. Clover grows in such abundance that this region is known as the "country for stock raising." The land is capable of producing big crops of grain, fruit and vegetables.

On much of this land there is enough timber to pay for it and furnish all the lumber for the necessary farm buildings. It is a country of abundant rainfall and the purest of water.

One out of every ten who visit the American Immigration Company's land become purchasers. The Company refunds railroad fare to purchasers.

Send for free maps, descriptive book, and all necessary information at once to the local representative of the company and get your pick of the land.

The Parable of the Sower, Matt. xiii:1-9, 18-23.

**Golden Text**—Wherefore putting away all filthiness and overflowing of wickedness, receive with meekness the implanted word, which is able to save your souls. Jas. 1:21.

(1.) Verses 1-2—Jesus seems to have taught his followers on every opportunity, about things pertaining to the Kingdom of God. Why is it both the privilege and duty of every Jesus man, to do the same thing?

(2.) What was the charm in Jesus, which attracted to him such great crowds?

(3.) Verse 3—Why did Jesus teach in parables, and what are the advantages, or disadvantages, of that method of teaching?

(4.) In what respect does the teaching of religion resemble the sowing of seed? (This question may have to be answered in writing by members of the club.)

(5.) Verse 4—How would you characterize a farmer, or a gardener, who tried to sow seed on the highway?

(6.) Should a Christian sow the seed of the gospel in those hearts which are not prepared to receive it?

(7.) If a path, or a road, runs through a well prepared field, then some of the seed sown by hand, will probably be scattered "by the wayside." Now what will be the difference in the crop from the prepared ground, and that from "the wayside?"

(8.) Verses 5-7—Why is a Christian under as much obligation to prepare the ground, when that is possible before sowing the seed, as a gardener?

(9.) Taking the ground to represent human hearts, which Christian sower will reap the greater harvest, the one who sows the seeds anywhere, and everywhere, or the one who only sows on well prepared ground?

(10.) Verse 8—Which faithful Christian is the more meritorious, the one who has good ground to sow on, and gets a good crop, or the one who has shallow, stony, and thorny ground from which he gets a poor crop? Why?

(11.) Verse 9—What is the difference between the inner ears, with which we hear moral and spiritual truth, and the outward or physical ears?

(12.) Is it a fault, or a misfortune, to have dull spiritual ears?

(13.) Verses 18-19—What is "the word of the kingdom," which all Christians should sow?

(14.) What class of persons are these "way-side" hearers?

(15.) Is understanding the word under the control of every hearer?

(16.) Verses 20-21—What relation to God do those hold who "receive the word, with joy," but after awhile fall away?

(17.) What is the difference between "way-side" hearers and "stony ground" hearers, and what is the difference in their blameworthiness?

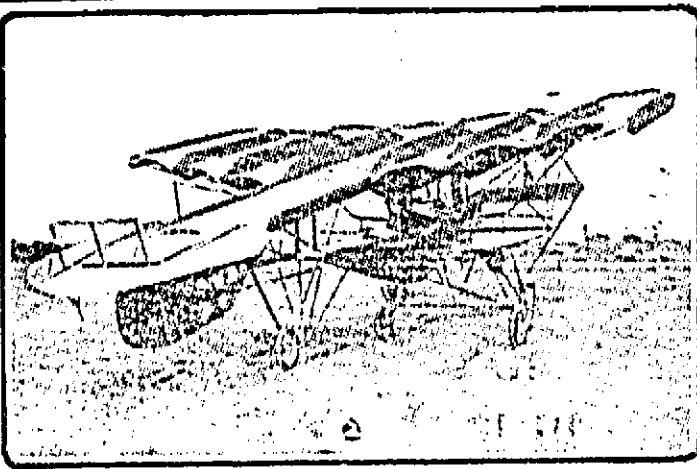

(18.) Verse 22—What are the causes of backsliding on the part of those who have been really converted?

(19.) Were those who "received seed among the thorns" ever really converted?

(20.) Verse 23—What merit is to be awarded to those who answer to the "good ground hearers?"

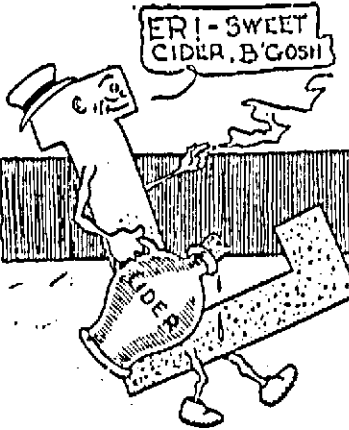

(21.) What is the fruit which is borne by every good Christian?

**AMERICAN IN PARIS INVENTS NEW AIRSHIP.**  
Metallic and amphibious aeroplane made entirely of steel and aluminum with a floating car.

Paris.—An American resident Mr. Molant, has constructed a novel monoplane airship. It is made entirely of steel and aluminum. No wood or canvas have been used in the construction. The wings are made of thin aluminum and the lower part of steel. The motor and pilot seats are placed in a car built to float on water, with two flat stabilizers on each side. The machine is fitted with a 50-horsepower motor and already Molant has made some short flights in it. The advantages claimed are strength of construction and its ability to light in the water without damage to the airship or inconvenience to the driver. Should later demonstrations prove the value of this metallic monoplane, it will undoubtedly be adopted generally over the world.

**No Book Hunters Now.**  
A well-known provincial member of that very honorable trade of second-hand bookselling said recently: "The hunt after rare books is as keen as ever, but I chiefly miss the young men who would mark down a book in my street-stall and would save up to buy it. There is plenty of book-buying, but there is no longer any book-hunting." —Hearth and Home.

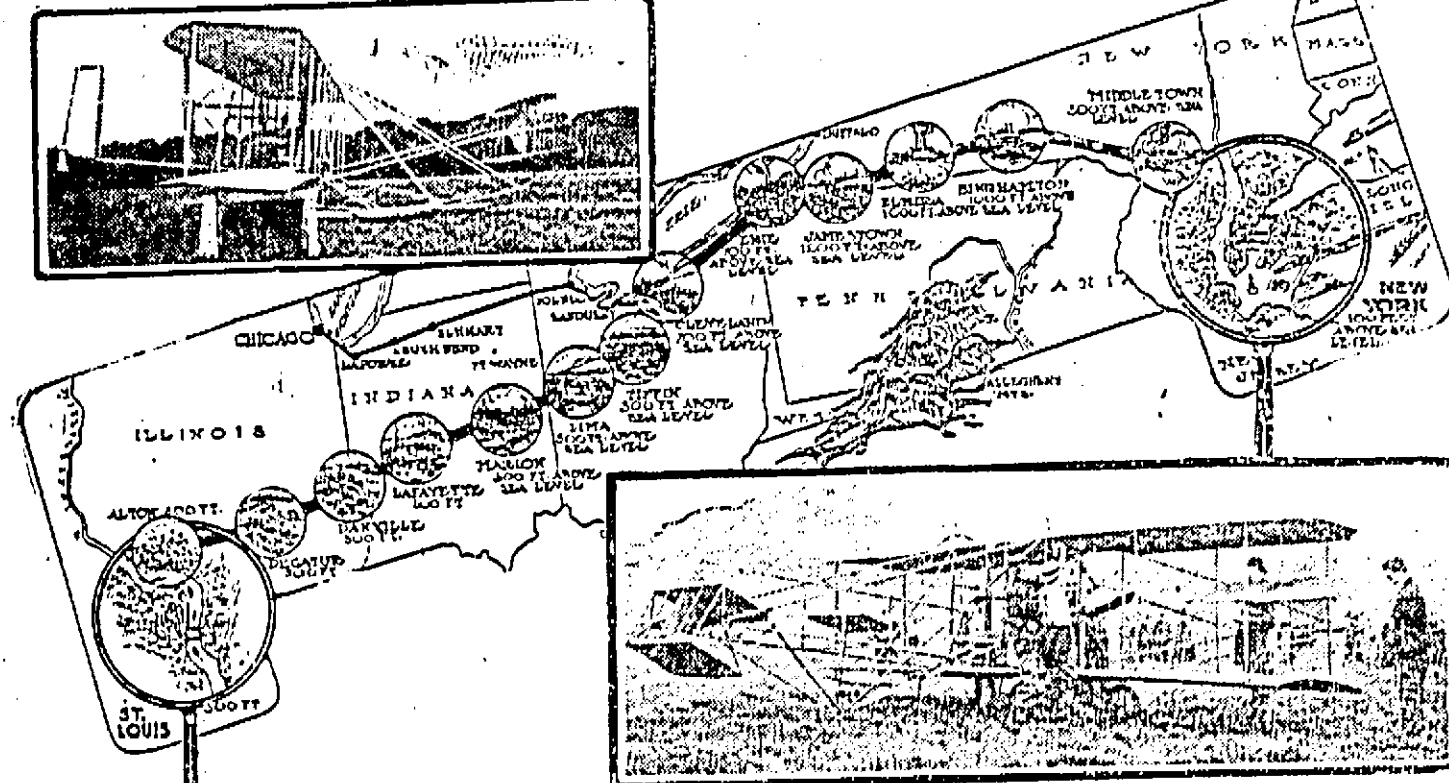

**A FINE WORD.**  
"Pa, what is the meaning of verbal-millitude?"  
"I don't know exactly, but it is a fine word to drop in where you can't think of any other that seems to be necessary."

**Windfall in Bible.**  
While reading a Bible which he had bought in a second-hand shop, a Heron Hill (London) gardener named Wallen, recently thrown out of work, came upon two £5 (£25) notes and the following inscription: "I gathered this money with very great difficulty, but, having no relative who is in absolute need, I make thee, who-so-ever shall read this Bible, to be my heir."

**YANKEE AVIATORS IN FIGHT FOR GIGANTIC PURSES**—Upper left, Wright airship. Lower right, Curtiss airship. Map showing the proposed route from New York to St. Louis and the various altitudes.

New York.—Aviators are enthusiastic over the prospect of winning half a dozen other contestants will enter the list and make a try for the big purse. Among those expecting to enter are Charles K. Hamilton, Thomas S. Baldwin and J. C. Murs. This has stated that he will enter his "Hudson Flyer" for this remarkable trip, and it is thought that at least and other races. Twenty-five thousand dollars is the reward for the New York-Chicago fly. The distance from New York to Chicago on an air line is 825 miles, and from New York to St. Louis by air line 675 miles. In crossing the mountains they will have to ascend 12,000 feet. Seven stops are planned to replenish fuel.
